The 7th International School-Seminar

EARLY INTERVENTION FOR CHILDREN AND THEIR FAMILIES: FROM THEORY TO PRACTICE

16-17 May 2023

Saint Petersburg, Russia

Dear colleagues,

We invite you to participate in **the 7th International School-Seminar on Early Intervention for Children and Their Families: from Theory to Practice**. The school-seminar will be aimed at discussing urgent issues of the theoretical foundations and advanced practices of early intervention for children with developmental delay and disorders and their families.

The School-Seminar is held on 16-17 May 2023 virtually

WE INVITE

heads and specialists of public authorities, administrations and specialists of rehabilitation, educational and medical organizations, researchers and representatives of private and non-profit organizations, as well as representatives of the parent community and students dealing with early interventions.

The information presented at the school-seminar will be important for professionals in the field of assistance to children and their families: teachers, psychologists, defectologists, social workers, neurologists, pediatricians, adaptive physical education / exercise therapy specialists, speech therapists, physical therapists, ergotherapists, sensory integration specialists, audiologists, audiologists, surdopedagogists, typhlopedagogists, behavioral analysts and others.

ISSUES TO BE DISCUSSED

- Informing about early intervention for children and their families
- Monitoring to identify children and families in need of early intervention services
- Cross-sectoral cooperation in early intervention services delivery
- Modern information technologies for organizing a regional early intervention system
- Regional resource and methodical centres on early intervention for children and their families
- Training and life-long learning of professional staff to work in the early intervention system
- Assessment of early intervention service effectiveness and family quality of life
- Development of early intervention system in a community
- Development of parental mutual assistance
- Evidence-based techniques and technologies of early intervention for children and their families
